	EYFS	Key Stage 1	Lower Key Stage 2	Upper Key Stage 2
Locational Knowledge	EYFS  Know some similarities and differences between the natural world around them and contrasting environments, drawing on their experiences and what has been read in class.  Participate in small group,	Name and locate the world's continents and oceans.  Name and locate hot and cold areas of the world (Equator, Arctic, Antarctic).  Name, locate and identify characteristics of the four countries	Lower Key Stage 2  Locate the world's countries, focusing on Europe, Africa and South America their environmental regions, physical and human characteristics and major cities.  Locate and name some counties and cities of the UK.	Locate the world's countries, focusing on Europe, North America and Asia and their environmental regions, physical and human characteristics and major cities.  Name and locate counties and cities in the UK; Study the human and physical geography of a UK region (The Lake District)
	class and one-to-one discussions, offering their own ideas, using recently introduced vocabulary (ELG)	and capitals of the UK and its surrounding seas.	Describe the human and physical characteristics of the local region, including coasts, rivers and land use.  Understand hemispheres, the Tropics, latitude and longitude.	Name and locate North America and a region within it (California).  Understand the Meridian and time zones.
Place Knowledge	Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps (ELG)  Understand that some places are special to members of their community.	Study the local area.  Compare the human and physical geography of a UK area to a non-European country. (London - Beijing)  Explore Antarctica - virtual field trip	Study both the local area and the geography of other countries including their human and physical features.  Study a region in a South America (The Amazon), a European country (Greece - Athens) and Africa (Egypt)	Describe the human and physical characteristics of a UK region including features such as rivers, coasts, hills and land use, understanding how some of these have changed over time.  Describe a region of North America, including human and physical characteristics and changes over time, making comparisons between their similarities and differences.
Human and Physical Geography	Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, nonfiction texts and – when appropriate – maps (ELG)  Understand the effects of changing seasons on the natural world around them.	Identify seasonal / daily weather patterns in the UK and the location of hot and cold areas of the world.  Use basic geographical vocabulary to refer to physical and human geographical features in the local area.	Describe and understand key aspects of physical geography (including climate zones, biomes, volcanoes and earthquakes) and human geography (type of settlement, economic activity, land use, trade links and the distribution of natural resources).	Describe and understand key aspects of physical geography (including the water cycle, rivers, monsoons, floods, droughts, vegetation belts & mountains) and human geography (type of settlement, economic activity, land use, trade links and the distribution of natural resources).

Create simple plans /maps using symbols.  Use fieldwork to observe, measure and record in the wider locality and beyond.  record in the wider locality. Present findings using a range of different findings in a range of ways.  Use fieldwork to observe, measure and record in the wider locality and beyond.  Fresent findings using a range of ways.  methods & technologies.	Geographical Skills and Fieldwork	Draw information from a simple map. (DM-UW)  Offer explanations for why things might happen, making use of recently introduced vocabulary(C+L)	symbols. Use fieldwork to explore the	•	
--	---	--	---------------------------------------	---	--

#### **Locational Knowledge**

Name and locate the world's continents and oceans.

Name and locate hot and cold areas of the world (Equator, Arctic, Antarctic).

Name, locate and identify characteristics of the four countries and capitals of the UK and its surrounding seas.

# Key Stage 1 Place Knowledge

Study the local area.

Compare the human and physical geography of a UK area to a non-European country. (London - Beijing)

Explore Antarctica - virtual field trip

# Human and Physical Geography

Identify seasonal / daily weather patterns in the UK and the location of hot and cold areas of the world.

Use basic geographical vocabulary to refer to physical and human geographical features in the local area.

#### **Geographical Skills and Fieldwork**

Use maps, atlases and globes.
Use basic geographical vocabulary and four compass directions to refer to local and familiar features when using maps.
Use aerial images and other models to recognise landmarks and basic human and physical features.

Create simple plans /maps using symbols.

Use fieldwork to explore the geography of the school, its grounds and the local area.

Summer B	EYFS - Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps. Draw information from a simple map  Y1 - Compare and contrast a small area of the UK with a non-European country	Name, locate and identify the four countries of the UK, their capitals and the surrounding seas.	The Great Fire of London: The UK	1. 2. 3. 4. 5.	Recap/assess prior learning Locate the four countries of the UK on a map. Identify the four capital cities of the UK and the surrounding seas. Explain the differences between physical and human features. Describe the human and physical feature of one of the UK's capital cities. Write a UK information sheet sharing what you've learned.	Capital City City Countries Northern River Sea Town Village United Kingdom	Children will develop knowledge of the four countries of the UK and their capitals and the surrounding seas.

**Lower Key Stage 2** 

### Locational Knowledge

Locate the world's countries, focusing on Europe, Africa and South America their environmental regions, physical and human characteristics and major cities.

Locate and name some counties and cities of the UK.

Describe the human and physical characteristics of the local region, including coasts, rivers and land use.

Understand hemispheres, the Tropics, latitude and longitude.

#### **Place Knowledge**

Study both the local area and the geography of other countries including their human and physical features.

Study a region in a South America (The Amazon), a European country (Greece -Athens) and Africa (Egypt)

# Human and Physical Geography

Describe and understand key aspects of physical geography (including climate zones, biomes, volcanoes and earthquakes) and human geography (type of settlement, economic activity, land use, trade links and the distribution of natural resources).

#### **Geographical Skills and Fieldwork**

Use maps, atlases, globes and GIS mapping.

Use the eight points of a compass, symbols, keys and 4 figure grid references.

Use fieldwork to observe, measure and record in the wider locality. Present findings in a range of ways.

#### **Locational Knowledge**

Locate the world's countries, focusing on Europe, North America and Asia and their environmental regions, physical and human characteristics and major cities.

Name and locate counties and cities in the UK; Study the human and physical geography of a UK region (The Lake District)

Name and locate North America and a region within it (California).

Understand the Meridian and time zones.

### **Upper Key Stage 2**

Describe the human and physical characteristics of a UK region including features such as rivers, coasts, hills and land use, understanding how some of these have changed over time.

**Place Knowledge** 

Describe a region of North America, including human and physical characteristics and changes over time, making comparisons between their similarities and differences.

#### **Human and Physical Geography**

Describe and understand key aspects of physical geography (including the water cycle, rivers, monsoons, floods, droughts, vegetation belts & mountains) and human geography (type of settlement, economic activity, land use, trade links and the distribution of natural resources).

#### **Geographical Skills and Fieldwork**

Use maps, atlases, globes and GIS mapping.

Use the eight points of a compass, 6 figure grid references and symbols and keys (including OS maps).

Use fieldwork to observe, measure and record in the wider locality and beyond. Present findings using a range of different methods & technologies.
