

CODING LESSON - MONDAY 6TH DECEMBER

For today's lesson, we are going to use block coding to make a game you will all enjoy.

Today, we are going to be making a version of the Flappy Birds game.

Below, is a link to a website which will run you through the whole lesson.

Watch the introductory video then work through the pages. The website will tell you when you are ready to move on to the next page

When you are finished, I want you to either make a screen recording of you playing the game or take some screenshots and upload them to your class Showbie page.

Have fun!!!

To get started, go to this website.
