

Hello lovely musicians. I'm really missing playing and singing with you all. I've recorded a couple of songs for you to sing along with me. Perhaps you could try clapping along or even playing. If you don't have a musical instrument perhaps you could make one out of a box or a tin or just use a saucepan and a wooden spoon.

For the more adventurous!!

Wow!!

Some of us made these in class. Really effective.

You can just have one band and pinch it to make it shorter and therefore higher in pitch when you pluck it.

Or with lots of bands, you can thread knives, forks and spoons to make a kind of glockenspiel.

Who knew there were so many ways to make your own musical instrument!

If you have any suggestions for more songs, I'll try and record those too.

Happy playing!

Mrs England
